

Truck or Trailer mounted options
35 Tonne Lift Capacity

SWINGLIFT®

HC20

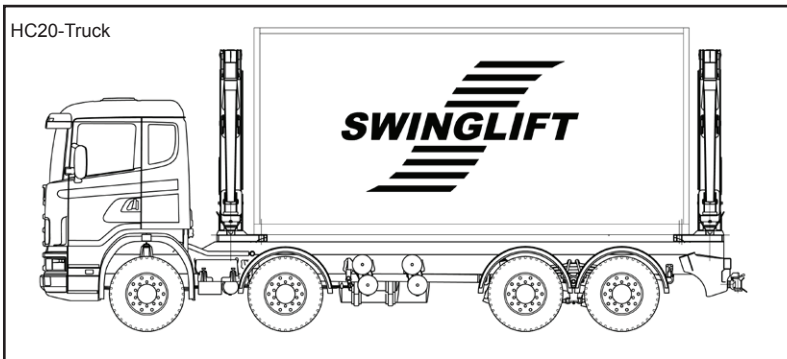

- “Leg-Over®” Stabilisers for ultimate safety and stability
- Fit to your new or existing 6 x 4 or 8 x 4 truck
- Lift Modules rated to 35 Tonne
- Truck or Trailer options

HC20 - Truck

The HC20-Truck is a fixed truck mounted side loader.

This compact Swinglift can lift empty right up to heavy 20' balanced containers (17,500kg each end) and lift and carry mid-weight containers on the truck within the limits of the GVM set by the manufacturer of the truck chassis.

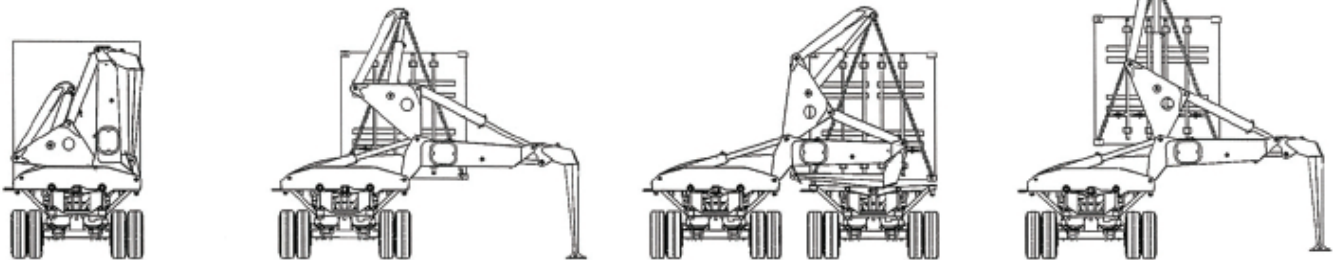

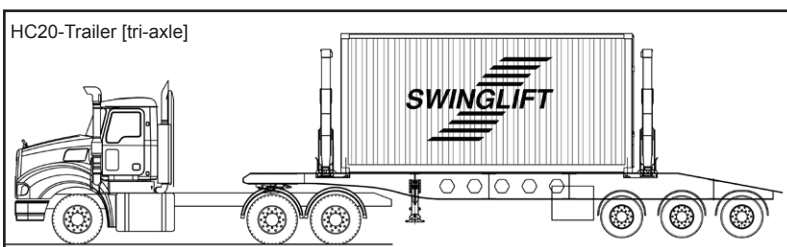

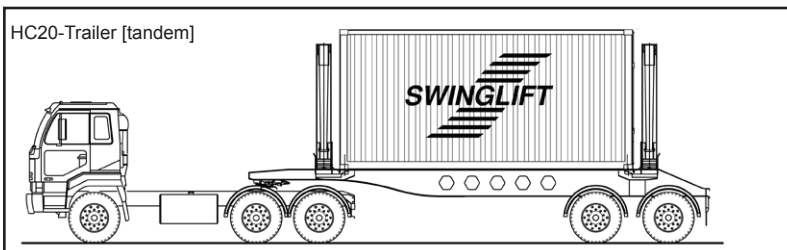

HC20 - Trailer

This model is a fixed trailer mounted side loader.

Options include tandem or tri-axle I-Beam trailers and lifting capacities of 35 or up to 40 Tonnes.

Also available are fixed 40' options.

Both options retain the proven Swinglift "Leg-Over" Stabiliser design which provides excellent safety and stability.
